Western	145	<b>6.6</b>	6.0 - 7.3
York	125	<b>6.5</b>	5.8 - 7.2

Data Source: Birth certificate datasets obtained from the Office of Data, Research and Vital Statistics, Maine Center for Disease Control and Prevention.

\* Percents are based on live births with known birth weights.

CI: Confidence Interval.

County and Public Health District are based on the residence of the mother at the time of birth.

Note: Group totals might not equal overall total because some births were missing group information. For example, births with missing maternal age were excluded from the maternal age analysis.
